

Recons Group

**EXPECT
MORE**

A collection of laboratory glassware rendered in a 3D, slightly stylized manner. From left to right, there is a small beaker containing blue liquid, a test tube containing red liquid, a graduated cylinder containing orange liquid, a flask containing blue liquid, and a large round-bottom flask containing green liquid. The glassware is arranged in a row, with the larger flask on the right being the most prominent.

We Commit. We Deliver.

DELIVERING THE FUTURE OF CHEMICALS

Founded in 1987, Recons Group has been a prominent player in the Indian building products and cement distribution market for over 35 years. Going forward, with Recons Multichem Pvt. Ltd. (RMPL) we have expanded our portfolio to essential chemicals.

RMPL is a forward-thinking organization that aspires to rise to the forefront of India's vibrant chemical trade. At the heart of our operations lies the commitment to delivering high-quality essential and fine chemicals that are backed by value-added market intelligence. Our cutting-edge facilities and robust supply chain network enable us to manage entire operations – from procurement to distribution – and cater to the diverse requirements of our clientele in a safe, cost-effective and timely manner.

RMPL is dedicated to herald the future of chemical trade by consistently meeting customers' expectations of product excellence, cost efficiency and industry-leading service.

DELIVERING RELIABLE CHEMICAL SOLUTIONS

Caustic Soda

- Caustic Soda Lye
- Caustic Soda Flakes
- Caustic Soda Prills
- Liquid Chlorine
- Hydrochloric Acid
- Compressed Hydrogen Gas

Chloromethane

- Methylene Chloride
- Chloroform
- Carbon Tetrachloride
- Methyl Chloride

Epichlorohydrin

CPVC Resin

Spent Sulphuric Acid

Hydrazine Hydrate

Caustic Potash

- Caustic Potash Lye
- Caustic Potash Flakes
- Potassium Carbonate

Soda Ash

Glycerine

Sorbitol

Oxalic Acid

Hexamine

Sodium Gluconate

Diethyl Malonate

Special Chlorine Derivatives

- Anhydrous Aluminium Chloride
- Chlorinated Paraffin
- Benzyl Alcohol
- Benzaldehyde
- Benzyl Chloride

Phosphoric Acid

- Food Grade & Technical Grade

Sodium Chlorate

Sodium Hypochlorite

Upcoming Derivatives

- Chlorotoluenes & its Value Chain
